DANCE HALL

Residents at Compass at Golden Pond love to dance in our new open space!

RESIDENT PROFILE

 **Caroline Bloy** was born in New York City but spent much of her life living in Maine. She was a college physical education teacher. She loves music, singing, dancing, and getting exercise. She has proven to be a great bowler here at Compass at Golden Pond, and is very encouraging to the other residents as they try to keep up with her! Caroline has two sons who live in Massachusetts, and a daughter in Maine. She loves the outdoors, and enjoys walking around the beautiful pond on our campus.

LOOK AT OUR VIEW!

If you have visited our community lately, you've had a chance to take in the absolutely magnificent view that we enjoy from nearly every room in our neighborhood. The fall colors surrounding beautiful Ice House Pond are breathtaking. In our new dining/living area, the floor-to-ceiling windows lend to almost a panoramic view, giving you the feeling that you could reach out and touch the auburn, red and yellow trees. Take a look...

ASSOCIATE PROFILE

Certified Nursing Assistant **Elvia "Lilly" Morales** was born in Guatemala and moved to Massachusetts 28 years ago. Lilly lived on a farm in Guatemala and helped her family with their agriculture business. When she arrived in the States, she began working for a family, caring for their children. The children grew up, and Lilly decided to take classes to become a CNA. She also enrolled in

English classes at Framingham College. Apart from her job here, Lilly also works at Mount Auburn Hospital on the maternity unit, caring for new babies! She loves having such different jobs, and enjoys giving care and attention to those with whom she works, young and old! Outside of work, Lilly has two sons and two daughters. She enjoys traveling, and is very active in her church.

FALL LANGUAGE COURSE: PORTUGUESE!

The residents at Compass at Golden Pond attend a Portuguese class twice a week, taught by Resident Care Associates **Irene** and **Maria**. Irene and Maria thought it would be fun to teach their language to the residents, and the response has been very positive. **John**, **Charlotte**, and **Rita** have used Portuguese words they learned outside of class! During the class, the instructors and students find themselves laughing as they all try to pronounce the new words correctly!

Irene (at right) teaches a Portuguese class

ART IN OUR BEAUTIFUL ACTIVITY ROOM!

The residents of Compass at Golden Pond have been enjoying our recently renovated Activity Room. This space will be used for our Reconnections learning program, resident meetings, and as seen here, art projects.

Top to bottom: Betty, Nick, and Charlotte enjoy a class on painting.
