### RESIDENT PROFILES

Ron and Faith (Erickson) Soderberg were both born and raised in Massachusetts. After high school, Ron served in the Air Force for four years. Ron escorted Faith to her senior prom in 1959 and the two got married six months later. They have been married for more than 51 years! While raising their two children in Norfolk, Faith worked for Star Market Companies on and off for 20 years, and Ron was an aircraft mechanic for almost 40 years.

The Soderberg family were avid campers, and traveled all over Canada and the United States (they have been in all 48 continental states!). After so called "retirement," Ron and Faith took summer jobs at the Cape Cod Canal as park attendants for ten years, and winter jobs at Walt Disney World for seven seasons. When they *really* retired, they decided on CCSR which they refer to as the "crème de la crème." But truly, they have not stopped working yet, as they both volunteer at CCSR and contribute immensely to our community. When not here, they can usually be found visiting their children and two grandchildren.

## ASSOCIATE PROFILE

Certified Nursing Assistant **Stefanie DePontbriand** has been on the CCSR team since December 2010. She graduated from Bourne High School in 2008 and is now a student at Cape Cod Community College, where she is studying to be a registered nurse. Stefanie has had many different types of jobs, from working at a fast food restaurant to a law office and everything in between. In high school, Stefanie loved sports and was a member of the volleyball, lacrosse, and track teams. Now her favorite teams to watch are the Bruins and Patriots. She says she is very excited that Lord Stanley's Cup has returned to Boston! Stefanie enjoys traveling, and has cruised to the Caribbean and to Hawaii (she loved Maui!). She also loves camping and spending time with friends and family at barbecues. Stefanie says the CCSR residents and staff create a family-like atmosphere that make her feel at home!
