RESIDENT PROFILE

Jose Banks is a seven-year-old male Chihuahua. He moved into Standish Village two years ago with his owner, Cathy. Jose enjoys kissing, cuddling, long walks, eating good food, and listening to our entertainment! Most of the time, Jose is in his room, unless he is visiting with other residents, or taking a leisurely stroll outside.

A Father's Day Feast!

Social Program Director Lauren Scherer organized a special Father's Day Buffet for all of the men who live at Standish! The meal was delicious, and there was an incredible turnout for this event. Above, left: Edward and Evelyn Battles enjoy breakfast together; right: CNA Christie McKenzie and Hugh O'Donahue share a smile.

Getting Crafty

ASSOCIATE PROFILES

Kristina Grublin is Standish Village's New Activity Assistant. Kristina has lived in Dorchester her entire life. Before coming to Standish, Kristina was working as a hostess at a restaurant in Boston. She heard about the position through our receptionist, **Jenn Grogan**, and decided to apply. Kristina has never worked with seniors before, but in her short time here, she has done a tremendous job! Kristina loves the residents and staff, and feels lucky to be working in the Activities Department.

Sanchia Honore has been working at Standish Village for the past six months as a dietary aide. After Sanchia graduated from North Andover High School, she and her family moved to Dorchester. One thing you may not know about Sanchia is that she is currently attending Bunker Hill Surgical Technology School. Working in the kitchen at Standish Village is not an easy job, but Sanchia has been doing an awesome job. Keep up the great job, Sanchia!

Happy August Birthday!
