Henry Williamson is a real man about town. He loves to be outside and takes walks whenever he can. He has lots of friends in the Dorchester area, where he was born and raised. Henry is also very reliable; he spent many years caring for his parents and taking care of things for his friends and neighbors. Henry is very interested in engineering,

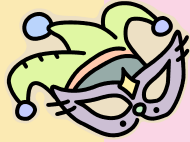

NEW RESIDENT PROFILE

electronics and all things mechanical, and he has a special fondness for animals. We are delighted he has chosen to make his new home here at Standish Village. Welcome, Henry!

Our High School Friends

We regularly have volunteers come to visit from both Boston College High (top) and Milton Academy (bottom). The students and seniors engage in such activities as charades and flower arranging!

Mardi Gras

Residents and staff donned New Orleans-style Mardi Gras masks and enjoyed their last day of frivolity (including some delicious and sinful treats) before Lent!
